Fillings

- Exercise caution when eating after your appointment until the numbness is gone.
- If you are supervising children who had fillings done, make sure they don't bite on their numb lips or tongue (it can cause serious injury to the soft tissues).
- You may experience cold and heat sensitivity and some gum soreness; this usually subsides within a few days.
- Please call our office if you experience pain or discomfort for more than a few days after placement of fillings, or if you have any questions.
- Call our office at 6634 5700 / 9625 5700 if you are experiencing pain, discomfort, or if you have any questions.
